Welcome to Lille
Welcome to France

Logo and Announcement

The poster features a background image of a modern building under construction with a large blue circular graphic overlaid. The text 'INTERNATIONAL GROUP FOR LEAN CONSTRUCTION' is written in white, bold, sans-serif font inside the blue circle. In the top left corner, there is a small version of the IGLC 2023 Lille logo. At the bottom, there are three columns of text providing details about the organization, the conference, and the host city.

IGLC : Founded in 1993, the International Group of Lean Construction (IGLC, www.iglc.net) is an international network of researchers from practice and academia in architecture, engineering, and construction (AEC) who feel that the practice, education, and research of the AEC industry have to be radically renewed in order to respond to the global challenges ahead.

IGLC 31 : Annual conferences are the main activity of the IGLC, and their locations rotate amongst the continents. The 31st IGLC conference in 2023 will be hosted in Lille in France and will gather researchers and practitioners from industry and academia to share lessons learned, ideas, and findings from research and practices.

Lille : Lille, the "World Design Capital" in 2023 and the "European Capital of Culture" in 2004, is known for its social and cultural events and rich history. The city has an international airport and a strategic location that is close to Paris, Brussels, London, Amsterdam, and Köln.

●●● What We're Working on now

Thank you...
Hope to see you in
Lille - France - 2023
